Dear KNO3 company,

This summer we had the pleasure of working with the *STEAM with Dribbles & Friends* Program again. We have been using *STEAM with Dribbles & Friends* for the summer of 2022 and 2023 and have enjoyed the supplemental curriculum to our summer fun.

The *STEAM with Dribbles & Friends* lessons are fun, interactive, and keeps even the youngest preschoolers engaged. The materials for the lessons are common, easy to find, and most importantly items that you can find in your home or classroom. This is a huge plus since schools are normally on a tight budget and funding for supplies is limited.

Community Action Program Committee used the lessons in seven classrooms with children ages 3-5. The teachers found the lessons easy to use and that the children really enjoyed the activities. Many times, the teachers would do an activity again at a later date because the children enjoyed it so much or asked for it again. Several of the teachers added their own flair to lessons to make them even more exciting and fun. Overall, the experience with *STEAM with Dribbles & Friends* was an A+ and I look forward to continued collaboration with Troy, Danielle, and the team.

Sincerely,

Michelle Forrest
